What is the best diagnosis?

A. Nevus sebaceous
B. Nodular hidradnoma
C. Majocchi’s granuloma
D. Syringocystadenoma papilliferum
E. Hidradenoma papilliferum
Syringocystadenoma papilliferum
Epithelial Invagination lined By apocrine epithelium

Papillary Projections

Mature Plasma cells
What is the best diagnosis?

A. Keratoacanthoma
B. Porocarcinoma
C. Verruca vulgaris
D. Verrucous Carcinoma
E. Basosquamous Carcinoma
Keratoacanthoma
Crateriform architecture

Epidermal Buttress

Glassy well differentiated keratinocytes
Flame Figures
Collagen encrusted with eosinophilic granules

Numerous eosinophils
What is the best diagnosis?

A. Polymorphous light eruption
B. Discoid lupus erythematosus
C. Jessner’s lymphocytic infiltrate
D. PLEVA
E. Lymphomatoid papulosis
Discoid lupus erythematosus
Colloidal Iron
Interface dermatitis

Dermal mucin

Superficial and deep perivascular lymphocytes

Follicular plugging

Lymphs infiltrate eccrine ducts
What is the best diagnosis?

A. Clear cell hidradenoma
B. Trichoadenoma
C. Proliferating pilar tumor
D. Trichoepithelioma
E. Clear cell syringoma
Clear Cell Syringoma
Comma Shaped Ducts with Clear cytoplasm

Rule out Underlying Diabetes mellitus

Sclerotic stroma
